OUR MISSION

“To enhance the ability of people with vision loss to lead active, independent lives.”

OUR VISION

Losing vision doesn’t mean losing independence. Since 1965 our skilled professionals have specialized in helping people with vision loss develop skills and strategies designed to promote and enhance safety and independence.
LETTER FROM THE CHAIRPERSON

2009 was an important and exciting year for Community Services for the Blind and Partially Sighted. For nearly 6 months, Board and Staff worked closely with a team of skilled volunteers from the Taproot Foundation to evaluate and assess our myriad of operations and programs. This was a challenging, but eye opening experience. We engaged in an ambitious strategic planning process with exciting outcomes. To better reflect the work we do, we defined our primary focus to be on individuals over 55 years of age. Seeing needs for this population, we began work developing new ideas for programs that would be of benefit to our clients. To conclude the process we updated our mission statement: "To enhance the ability of people with vision loss to lead independent, active lives."

To better understand the growing communities in our region, we conducted an extensive, year-long process of community outreach. Thanks to the financial support from the National Eye Institute our dedicated staff increased awareness for healthcare providers working with people of color and non-English speaking individuals about vision rehabilitation services. Throughout 2009, staff collaborated with other agencies within the region to educate these communities about the importance of regular eye exams, as well as identified places where low/no cost exams could be obtained. As a great resource tool to continue this outreach, we now have our agency brochures translated into six different languages – extending our family beyond language barriers.

Through these defining moments we have come to recognize that we will continue to be challenged by financial pressures. At the same time our local population mirrors an aging population in America and an increasing number of people will turn to us for essential vision rehabilitation services.

The continued support we receive from the community is greatly appreciated. Individuals (many of whom use our services), corporations and foundations thanked in this annual report have provided us with the opportunity to offer necessary services to thousands of individuals each year. Recognizing the need to diversify revenue streams, we hosted our first annual fundraising breakfast, Share The Vision. The support we received was overwhelming and encouraging!
You, our generous and dedicated donors, afford such a resource to the greater Seattle region by contributing to our efforts. On behalf of my fellow Board members and the CSBPS staff, we thank each of you for your ongoing support of our mission and continued growth. Please continue to support our agency and join us in enhancing the ability of people with vision loss to lead independent, active lives.
